Illidan gets the Argos seal and destroys the remaining records. After his departure, Illidan destroys the gate to Natriza in such a way, that, more or less like Dranor, Nathreza was blown up. Illidan reveals to his lieutenant that the twisting demons of Thenther can not kill permanently, unless they either die inside the twisting nether itself, or an area damaged by their energies, such as Nathreza. Illidan also reveals that he intends to lead his armies, using the Argis seal, to Argos, and Eredar homeworld, where he can exterminate almost the entire command structure of the Burning Legion since taking control of Eredar's Legion to Sarger. Interview with King on March 11, 2016, WoWfan.cz fansite got an interview with William King for more details about Illidan's upcoming book. [7] The book continued for 5 months without final editing. The book is supposed to be prequel legion instead of a reference book. The book depicts the rise and fall of Mr. Outland as well as the training of his demon hunters. Illidan Stormrage is the king's most favorite character in the Warcraft universe. He considers him to be the most charismatic, selfish villain rather than a hero whose book attempts to reflect his true character. Illidan knows how to fight demons and he will do everything to stop the Legion. The book is very dark and darker than Warhammer. The Burning Legion is darker than Warhammer's mess, and the author compared The Relationships of Elidan and his satanic hunters to Steve Jobs and his staff. William put a character named after his character in the game in the book but Blizzard changed the name. How exactly Illidan got the azzinoth warglaives not in the book because Blizzard does not want to cover them. Maiev's contradictions mention Darnassos several times and may indicate (if not wrong) that the city already existed before the frozen events of the throne. In previous sources, Darnas was built after these events, which means that Mayev was unable to find out during her time in Outland. Outland had previously been described as having no sunshine. [8] Illidan contradicts this by mentioning the scorching sun of the Hellfire Peninsula. [9] While Outland was previously mentioned to be twisting in The Nither, the directly states that they fall into the great darkness behind. Syddan, a nocturnal dwarf, is mentioned by Eversong Woods.
